## MBA with Health Care Emphasis

Viterbo University has a rich history of serving the community through the development of health care professionals. Following this tradition, the MBA program now offers an optional emphasis in health care management. To meet the requirements of this emphasis, students choose electives in health care and focus their integrated research project on a topic related to health care.

Students choosing the MBA with Health Care Emphasis begin and end the program with a cohort of professionals from a variety of industries. For two of their electives, health care emphasis students select courses focused on various aspects of health care management including a Health Care Systems and other courses exploring specific legal, financial, ethics, and quality management aspects of health care. The final capstone project is also focused on a health care related topic.

A sample schedule for a student choosing the MBA with a Health Care Management Emphasis is shown below. Students may begin this program in May, August, or January and graduate in two years while attending class one night per week from 6–10 p.m. or in one year while taking classes two nights per week. Some courses are offered in two formats – face to face or blended/online – so you can choose your most convenient option at that time.
